Course description

English is an important working language for international education, European cooperation and professional exchange. This advanced course is designed for teachers, trainers and education professionals with an existing B2 level who want to strengthen their communication across the B2-C1 proficiency range.

Through practical, communication-focused activities, participants will develop greater fluency, accuracy and flexibility in spoken and written English. They will expand professional and academic vocabulary, refine complex grammatical structures, improve pronunciation and intonation, and practise presentations, discussions, negotiation and professional writing.

Particular attention will be given to communication in international education contexts. Participants will practise adapting register, expressing and defending viewpoints, clarifying and reformulating information, managing misunderstandings and communicating diplomatically across linguistic and cultural contexts. Peer exchange and reflection will support continued language development and transfer to participants' own professional environments.

05 / LEARNING APPROACH & METHODOLOGY

Learning Together Methodology

Learning Together courses combine guided input supported by presentations and multimedia resources with practical experimentation, creative workshops, case-based learning and hands-on tools. Participants connect the learning to their own professional situations and progressively develop an applied outcome, which may take the form of a presentation, project, session plan, action idea, reflection or another relevant output.

Peer / trainer feedback supports refinement throughout the process, while European exchange encourages participants to compare practices, perspectives and approaches across different educational contexts.

Methods applied in this programme

Task-Based Communication & Fluency Practice

Structured speaking tasks, problem-solving activities and roleplay develop spontaneous interaction, turn-taking, clarification, paraphrasing and confidence in expressing and supporting ideas.

Guided Language Development & Professional Writing

Guided language analysis, contextual grammar practice and writing workshops help participants refine accuracy, lexical range, register and coherence in professional and academic communication.

Simulation, Mediation & Presentation Practice

Presentations, debates and simulated international scenarios develop structured speaking, pronunciation, mediation, negotiation and diplomatic communication across multilingual and intercultural contexts.

Collaborative learning, peer exchange and reflection

Participants work with European colleagues, compare professional contexts, exchange approaches and reflect on how the learning can be transferred to their own institutions.

> **Illustrative example: Preparing for an International Erasmus+ Meeting**
>
> Imagine an educator preparing for an Erasmus+ project meeting with European partners. Participants define their communication goals, prepare a short contribution and supporting professional language, practise discussion, clarification and negotiation through roleplay, and produce a concise written follow-up. This illustrates one possible professional application; actual course activities vary with the trainer and group.

An adaptable learning experience

Learning Together courses are delivered by trainers with relevant professional & pedagogical experience, **who are fluent English speakers**. The trainer may vary by edition, adapting the activities to the group's professional context and learning goals.
