Advanced Institute for Skills Development

COURSE DESCRIPTION

Teaching is generally considered fifty percent knowledge and fifty percent interpersonal or communication skills. The art of communication involves listening and speaking as well as reading and writing. Teachers need to be highly skilled in all these areas to be excellent in their profession.

For a teacher, it's not just important to teach a quality lecture; they also need to be able to transmit knowledge, skills and values at the same time. Communication skills for teachers are thus as important as their in-depth knowledge of a particular subject. It is only through communication skills that a teacher can introduce creative and effective solutions to the students' problems.

Course objectives: the **main goal** of this course is to develop effective communication skills of participants.

The course focuses on bettering the classroom techniques and practical activities that teachers can use, whilst expanding their ideas so that they can teach engaging and informative lessons. The course aims to help teachers of all subjects and clarify their roles in encouraging students to become confident users of language in reading, writing and talking.
