COURSE DESCRIPTION

Schools' funding is calculated largely on a per-pupil basis. A reduction in enrolment will mean a reduction in funding.

Schools need to successfully differentiate themselves to stand out, and the school website is the online shop front! Moreover, schools must also recognise the need to allocate appropriate resources to digital marketing.

Success requires an integrated digital marketing strategy targeted at parents looking for a school for their children.

Understanding how the school should be using their website, social media and internet marketing to grow their online presence and attract more parents (and ultimately students) is absolutely critical in today's competitive marketplace.

Furthermore, it is even an opportunity to help you disseminate and promote your work and the knowledge you collected in Erasmus+ training abroad to the whole school community.

A good understanding of your school's objectives is the first step in creating a digital marketing strategy. Without knowing what your school is aiming for, it won't be enough to give you the chance to succeed. Make your school goals as specific and clear as possible.

COURSE INFORMATION

Learning Outcomes

- Provide an overview on digital marketing and empower you to grow your current marketing knowledge;
- Develop and acquire effective skills to improve your/school current presence on digital channels (Blog, Facebook, LinkedIn and other tools). By integrating social media into the school website in an engaging way, schools can also drive traffic to it and push out content through social media platforms;
- Create stronger connections between schools and communities, increase website visitors and enhance the school's overall online presence;
- Improve technical language, communication and social skills;
- Promote intercultural awareness.

Duration: 1 week (6 days – Sunday to Friday – 9h00 to 13h00)

Location: Porto, Portugal **Language:** English
