# COURSE DESCRIPTION

Portugal has one of the oldest borders in Europe, with an exceptional range of different landscapes just a short distance away, lots of leisure activities and a unique cultural heritage, where tradition and modernity blend together in perfect harmony.

Its superb, quality cuisine, fine wines and hospitable people make this country a tourist paradise of the highest quality.

**Course Objectives:** This course aims to empower participants by raising awareness about the importance of safeguarding and promoting distinctive culture, cuisine, arts and sustainable tourism assets.

This is essential to balance against the latest globalised food trends that impact our planet, health, local economies and the European identity that is expressed on multiple social and biographical identities.

It also intends to use Museums, nature and urban landscapes as agents of sustainable development and as educational work for heritage dissemination, both in formal and informal education areas as a relevant reference point in the case of formal education.
