

# DIGITAL LITERACY FOR TEACHERS: NAVIGATING ICT

learning**together**

*Constantly learning,  
constantly evolving.*

**OID: E10201112**

Advanced Institute for Skills Development

# COURSE DESCRIPTION

Welcome to "Digital Literacy for Teachers: Navigating ICT"! This course equips educators with the knowledge and skills to integrate ICT and digital tools effectively. In today's rapidly evolving digital landscape, technology integration has the potential to revolutionize teaching and learning experiences, preparing students for the future.

Throughout this course, we explore the significance of ICT in education and the benefits it offers. Practical strategies for integrating digital tools into lesson planning are emphasized, enabling participants to create engaging and personalized learning experiences.

Collaboration and communication are vital skills in the digital age. This course addresses how technology enhances student interactions, covering online collaboration platforms, communication tools, and considerations for virtual classrooms and remote learning. Participants will learn how to evaluate the impact of ICT integration on student engagement and learning outcomes; as well as explore formative and summative assessment strategies using digital tools.

By the end of this course, educators are empowered to embrace ICT and digital tools as transformative elements in their teaching practice. They will possess the knowledge, skills, and confidence to create engaging and inclusive classrooms that foster critical thinking, collaboration, and creativity.

Join us on this exciting journey as we explore the possibilities of ICT and digital tools in education, preparing educators to inspire the next generation of learners.

# COURSE INFORMATION

## Learning Outcomes

- Understand the importance of ICT and digital tools in modern education
- Explore various digital tools and their applications in different educational contexts
- Develop strategies to integrate ICT effectively into their teaching practices
- Enhance their digital literacy skills and adapt them to support student learning
- Design engaging and interactive learning experiences using digital tools
- Foster collaboration and communication among students through technology
- Evaluate the impact of ICT integration on student engagement and learning outcomes
- Address challenges and considerations related to ICT implementation in the classroom
- Stay updated with emerging trends and best practices in educational technology
- Develop an action plan for implementing ICT and digital tools in their own teaching practice
- Identify and share good practices that can be implemented at a local level
- Enhance communicative competence in English

**Duration:** 7 days - 9h00 to 14h00

**Location:** Madeira, Portugal      **Language:** English

**Certification:** Certificate of Attendance + description of the learning outcomes above; Europass validation

**Price:** 660€ (course fee + administration costs + social program)

(Our courses are eligible to be completely funded by the new Erasmus+ program 2021-2027 - KA1 funds and several other programs)

# DAILY PROGRAM\*

Our courses also include  
daily Coffee Break & Social  
Program

## DAY 1

- Welcome dinner, icebreaking
- Meet & greet, networking – participants and staff
- Week briefing & planning

## DAY 3

- Strategies for integrating digital tools into lesson planning
- Creating interactive multimedia presentations
- Gamification and interactive learning platforms
