

CHATGPT: HOW TO HANDLE AI IN SCHOOLS

learning**together**

*Constantly learning,
constantly evolving.*

OID: E10201112

Advanced Institute for Skills Development

COURSE DESCRIPTION

Preparing students for the ever-evolving job landscape can be a daunting task for educators. The future, whether it's a decade or two away, remains uncertain. However, it is increasingly evident that artificial intelligence (AI), machine learning, and advanced language models such as ChatGPT and Bard will play a significant role in shaping that future.

This course stems from the imperative to equip educators with a profound understanding of artificial intelligence (AI) and its ever-growing relevance in the realm of education. AI has the transformative potential to revolutionize the way we impart knowledge and facilitate learning, enhancing accessibility, efficiency, and the personalization of instruction. ChatGPT, as an AI tool, holds the promise of becoming an invaluable educational resource. Nevertheless, it is crucial for educators to wield it judiciously, mindful of the ethical and societal implications.

The primary objective of this proposed course is to endow participants with a comprehensive comprehension of AI's role in education, with a particular focus on the practical application of ChatGPT. Participants will have the opportunity to delve into the prospects and challenges of integrating AI in the classroom through a blend of informative sessions, hands-on exercises, and presentations.

Furthermore, this course aligns with contemporary approaches to professional development, emphasizing dialogue, reflection, and collaborative learning. It has been meticulously designed to be interactive and participant-centered, fostering candid discussions and the exchange of ideas.

COURSE INFORMATION

Course Objectives

The course has been crafted to educate teachers/trainers about the realm of artificial intelligence (AI) and its significance in the field of education. It aims to accomplish the following objectives:

- Familiarize participants with ChatGPT and explore its potential applications within the educational environment.
- Emphasize the importance of empathy in harnessing AI technologies effectively.
- Provide participants with hands-on experience in utilizing ChatGPT within an educational context

Learning Outcomes

- A clear understanding of AI in Education;
- Participants should be able to apply their knowledge and skills acquired during the course to create educational experiences that incorporate AI technologies,
- The participant-centered learning environment, where their voices and perspectives are valued, and they are encouraged to actively contribute to discussions;
- Upon completion of the course, participants should feel better equipped to prepare students for the future job landscape, understanding the potential role of AI and other emerging technologies.;
- Foster a supportive community of educators who are keen on AI in education,
- Enhancing English language
- Enhancing digital skills
- Share European common values

COURSE INFORMATION

Duration: 1 week (6 days – Sunday to Friday – 8h30 to 13h30)

Location: Porto, Portugal

Language: English

Certification: Certificate of Attendance, including a description of the learning outcomes from the previous page; Europass validation

Price: 480€ (course fee + administration costs). Prices according to the new Erasmus+ 2021-2027 program

See more information (e.g. price description, included activities) in the course page

DAILY PROGRAM*

*This course also includes a daily Coffee Break

DAY 1 / 18h30

- Welcome dinner, icebreaking
- Meet & greet, networking – participants and staff
- Week briefing & planning

8h30-13h30

- Overview of Artificial Intelligence
- Introduction to Artificial Intelligence in Education
- Intelligence (AI) and its role in education.
- Discussion of how AI can transform the way we teach and learn
- Discussion on the importance of empathy when using AI tools and how to ensure that technology does not overshadow humanity.

DAY 2

8h30-13h30

- The case of ChatGPT: – Presentation of ChatGPT.
- Understand what ChatGPT is and its capabilities
- Personalize your ChatGPT experience by customizing its responses and adjusting its tone
- The potential to be a valuable tool for educators in a classroom setting

- Use ChatGPT for language translation, generating creative content, and discovering new knowledge
- Effectively contextualize queries and maximize ChatGPT's potential
- Functionalities and how it can be used in the classroom.
- Cultivating Critical Thinking
- Group work

DAY 3

8h30-13h30

- Practical demonstration: – Practical demonstration of the use of ChatGPT in the classroom.
- Understand ChatGPT's limitations and ethical standards when using it

- Practice interacting with ChatGPT through examples and exercises
- Creating Quizzes and Tests
- Group work

DAY 4

8h30-13h30

- Discussion of the challenges and opportunities of AI in education, with a focus on the use of ChatGPT
- Developing Lesson Plans,
- Facilitating Role-Play Scenarios
- Virtual Tutors and Mentors
- Providing Feedback on Student Work
- Enhancing student learning experiences and improving student learning outcomes

- Study Buddy for Exam Preparation and language learning companion
- Leveraging ChatGPT for special needs education
- Increasing the accuracy and efficiency of evaluating and assessing student performance

DAY 5

8h30-13h30

- Challenges and ethical implications: Plagiarism, Ethics, Biases and misinformation
- The Future of Chatgtp in Education in : time management, availability, and personalization

- Presentation of the work;
- Course roundup and review;
- Validation of learning outcomes;
- Certification.

DAY 6

TRUSTED BY EDUCATORS ALL AROUND EUROPE

Learning Together believes that well-trained teachers are more motivated & better able to successfully perform and achieve organizational goals! We believe that all organizations' core are its **people**, therefore we organise development courses for education professionals who want to enhance & acquire new competencies related to their work practice. That way, participants can better teach the people of tomorrow, **while absorbing new cultures and meeting people all around Europe!**

LET'S LEARN TOGETHER!
