Advanced Institute for Skills Development

COURSE DESCRIPTION

This course is appropriate for participants who seek to develop Basic to Intermediate English language skills (especially speaking fluency, vocabulary and pronunciation), or for English teachers who want to learn different techniques for their classroom.

Participants will improve and enrich their English knowledge in selected aspects of the language and as a means of communication in class and everyday situations.

Furthermore, we intend to update and deepen the understanding of teaching methodologies and practical teaching skills and techniques.

The course focuses on practical classroom activities and resources, providing participants with a refreshing variety of teaching techniques.

Objectives: This course aims to provide educators with opportunities to revitalize their English knowledge (beginner level), as well as reinforce their confidence in using and speaking the language. As a result of attending this course, participants will be more knowledgeable, confident and fluent English users.

Course Objectives

Our trainer uses practical and innovative methodologies, and our participants get to learn in a positive environment, with different and exciting learning approaches! This course can be both for participants to develop their English (beginner), or for English teachers to apply different and more interactive teaching techniques in the classroom.
